

Subject Name: Engineering Geology

Subject Code: CE1202

Date: 28/02/2025

Time: 45 Min

Exam: E1/S2/MT1

Max Marks: 15

SECTION -A(5M)

1. kaolin is chemically classified as?
 - a) Metamorphic rock
 - b) argillaceous rock
 - c) calcareous rock
 - d) silicious rock
2. Olivine rock is in which form
 - a) Massive form b) Granular form c) bladed form d) lamellar form
3. As per Moh's scale, the hardness of Diamond?
 - a) 7 b) 9 c) 8 d) 10
4. Sedimentary resulting from the remains of plants and animals?
 - a) chemical deposits
 - b) organic deposit rocks
 - c) chemical deposit rocks
 - d) none of the above
5. Rocks formed due to alteration of the original structure under heat and excessive pressure are?
 - a) Sedimentary rocks
 - b) igneous rocks
 - c) metamorphic rocks
 - d) none of the above

SECTION -B (2*5=10M)

1. What are different types of physical properties of minerals ? Write about any three properties with examples? (5m)
2. a. Write about the classification of rocks(chart)? (2m)
b. Explain internal structure different layers of earth?(3m)
3. Write a short note on(5m)
 - a) Structure of sedimentary rock?
 - b) Texture of igneous rocks?

END OF THE PAPER

B921341

RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES, BASAR
(A.Y. 2024-2025)

Civil Engineering

Subject: Engineering Geology
Date: 29/04/2025
Exam: E1 SEM 2

Subject Code: CE1202
Max Marks: 60
Time: 3 Hours

ANSWER ANY 5 QUESTIONS FROM THE FOLLOWING

Note: Draw the neat diagrams where ever required.

1.a) What is meant by weathering of rocks? Explain in detail different types of weathering? (6M)

b) What is importance of Engineering Geology in Civil Engineering and What are the branches of Engineering Geology? (6M)

2.a) Define petrology? Write briefly physical, chemical and geological classification of rock? (6M)

b) Explain the structure and texture of sedimentary rocks? (6M)

3.a) Define fold, and joint? What are the classification of folds with neat sketch diagrams? (6M)

b) What is origin of soil? classify the soil types? (6M)

4 a) Write a short note on a) types of aquifers b) zone of aeration and saturation c) dip and strike (4M)

b) Explain various methods used in ground water exploration? (8M)

5.a) Write in detail about different components of dam with neat diagram? (6M)

b) What are the geological considerations for selection of reservoir site? (6M)

6.a) What is a tunnel? classify different types of tunnels and what are the different methods of tunnelling? (6M)

b) What is start up time and lining of tunnel of rock? and what are the factors affecting start up time? (6M)

7.a) What are different types of physical properties of minerals? Write about
i) form ii) habit iii) streak iv) colour? (8M)

b) What is a landslide and What are the causes and preventive measures of landslide? (4M)
